ANCHORAGE, ALASKA 99502

from the Top of the Tower.....

ELECTIONS: It is time again to elect new officers and boardmembers and that will happen in the June club meeting. SO BE THERE! A proxie vote can be given to another member. A ballot may be mailed to the secretary in time to be submitted at the time of the elections. But it is best that you BE THERE!!!

ALASKA WOMEN'S GOLD NUGGET TRIATHLON: It happened on May 19th. Lorraine Conary, KL7IAF, was the chairperson and said it would go smoothly. Thanks Lorraine.

THE JIMMIE HEUGA EXPRESS: Is a fund raising event for Multiple Sclerosis where skiers will ski a million vertical feet. It is to happen on May 30th. A propagation study was done from Barlett Glacier to Alyeska. Tim Pettis, KL7WE, is putting this together.

NEW ARRL NET DIRECTORIES: Martha Neeley, KL7QS, who is the ARRL Section Emergency Manager (SEC), has the new 1984-5 Net Directories and they are available to those who want them. The directories have alot of information in them about nets nation wide and traffic handling in general. Martha has done a good job as SEC, but always needs good people to help. Anchorage needs an Emergency Coordinator.

AMATEUR RADIO WEEK: Senate Bill 262 is to designate the last full week in June as Amateur Radio Week. This bill got out of the Senate but is still in the rules committee of the House. We need people to contact their legislators to get Senate Bill 262 passed, which is to increase public awareness of the vital importance of Amateur Radio in Alaska. We need House approval and the Governor to sign it. Write and Talk to your State legislators.

SPECIAL OLYMPICS: Art Taylor, KL7SK, is the chairperson for hams. He needs lots of help so contact him NOW! It is happening on June 7th, 8th and 9th. The AARC Club meeting is the Night of the 7th, so we need volunteers before the club meeting.

CALL SIGN BELT BUCKLES: David Epstein, KL7LO, has informed me that they have been ordered. We had enough orders to get the first price brake. They will be here in about four weeks. Thanks David for another job well done.

RAFFLES: There will be no Field Day Raffle this year. The raffle committee decided to have just two raffles this year. The tickets for the Flea Market Raffle should be printed and available soon.

BOYS CLUB: The Boys Club project is nearly completed. We need one more straight section of Rohn 25G for the Mosley 33 beam. When we get a complete and operating HF station, then we need teachers with alot of patience to teach Amateur Radio at the Boys Club. They have a Hammerland receiver and transmitter, a Swan 500 transceiver, 30 foot of Rohn 25G (including top section), a 40-meter and a 80-meter dipole, a light duty tower and some other gear. Roger Hansen, KL7HFQ, and myself, Daniel Stevens, KL7WM, are working with the Boys Club. Thanks to all who have donated things.

WALK FOR HOPE: Thanks to Bill Reiter, KL7ITI, Walk For Hope went well. Eagle River needed more held, but it worked out.

MOTHER'S DAYS MESSAGES: I have not got the list of people who helped, but I want to thank everyone involved. It went well and all the traffic got out. Bob McKinnie, AL7AW, and Bud Laws, KL7IBZ, did a good job organizing.

BY1PK: The Bird Wattmeter slugs for the China Radio Sport Association have been ordered and should be here shortly. Bob McKinnie, AL7AW, will take care to send them to China.

FIELD DAY: J. D. Delancy, K1ZAT, and David Epstein, KL7LO, are in charge of Field Day. They hope to get Upper Otter Lake where we were two years ago. Since more information is not available now we will mail a flier out.

STORAGE: The club has been offered temporary storage area until a week after Flea Market. Harley Stewart, KL7IZZ, is making some space available. Please contact me, Daniel Stevens, KL7WM, for more information.

THANKS FROM THE PRESIDENT: In thinking back throughout this last year there several names that come to my mind as people who did outstanding things for the AARC. I wish to take this place to thank those; Rick Marvin, KL7YF, for Flea Market, Mary Laws, NL7DM, for the Christmas Party, Bill Reiter, KL7ITI, for the many many events he chaired, Lillian Marvin, NL7DL, for Iditarod, Doug Dickinson, KL7IKX, for keeping busy with VHF, Bonnie Jennings, NL7DM, for the great newsletter, Roger Hansen, KL7HFQ, for the VEC and the Boy Club, and probably the one who helped me the most Martha Neeley, KL7QS, for working behind the scene with her computer and events and emergency preparedness. One person can't do it all. It takes all of us to make a great club. We have a great hobby and only by working together can we make it greater. The AARC is having some thank you certificates printed. This has been one of my goals for this year.

73's
Daniel Stevens KL7WM
DANIEL STEVENS, KL7WM, PRESIDENT

NEW PBBS IN ALASKA

During a recent trip to Alaska, Tom Clark, W3IWI helped install "the farthest-north packet-radio bulletin-board system" -- KL7GNG in Cleary Summit, Alaska. The PBBS, using a Xerox 820 and the W0RLI MailBox software, serves Fairbanks on 145.01 MHz. There are now only 3 users, but within a month or two there will be several more. Demonstrating the emergency and public service uses of packet radio and the PBBS to the Fairbanks ARC generated considerable interest, perhaps because of the high number of computers per capita in Fairbanks (they have to have something to do on those long, cold winter nights!). Tom Walyer, KL7GNG, indicates that he has plans to try to establish packet links between Fairbanks and Anchorage in the near future.

Via W3IWI.

SPECIAL ANNOUNCEMENT

FRANK BOWLIN WL7D
&
JIM LEACH KL7TK

HAVE BEEN ELECTED TO THE

IDITAROD TRAIL COMMITTEE BOARD OF DIRECTORS

ANCHORAGE AMATEUR RADIO CLUB BOARD MEETING

APRIL 10, 1985

Present: President Daniel Stevens KL7AM; Activities Mgr. Mary Laws NL7DM; Secretary Lance Dunbar AL7BK; Treasurer Fred Wegner KL7HFM; Trustee Bill Reiter KL7ITI; Board Members Martha Neeley KL7QS; J. D. Delancey K1ZAT; Ed Tucker KL7DU; Fenton Rexford NL7BE; Jay Jennings KL7JGU; John Williams AL7CT; Jean Belfield KL7VT. Absent: Past President Wilse Morgan KL7CQ; Vice President Lorraine Conary KL7IAF; Board Members Mel Warner WL7J and Jim Larsen AL7FS. Also present were VHF Chairman Doug Dickinson KL7IKX; Lillian Marvin NL7DL; John Shull W4IGM; Steve Wilcox KL7JIM; David Epstein KL7LO; Frank Bowlin WL7D; and Bob McKinnie AL7AW.

The meeting was called to order at 7:12 P.M. in the meeting room at the Hope Cottages office at 2805 Bering Street, by President Daniel Stevens.

Frank Bowlin, WL7D requested that the board go into executive session to discuss a matter that he wished to present to the Board. Bill Reiter KL7ITI so moved and John Williams AL7CT seconded. The vote was unanimous, and visitors were asked to leave the meeting until invited back by the President.

Following the executive session, the minutes of the previous Board and General meetings were read and accepted after corrections.

Treasurer Fred Wegner KL7HFM gave an abbreviated report in which he noted that the Club currently had \$11,000. in AHFC bonds, \$5,000 in Certificates of Deposit, \$1,201. in the cash reserve fund and \$6,400 in the general checking account. It was noted that the Club should investigate the possibility of establishing a 'money market' account for the general checking account, which would draw interest and still allow for the writing of checks against it. Fred will discuss this possibility with Marriner Bertholf NL7AF.

VHF Chairman Doug Dickinson KL7IKX reported that the Version III Software for the 34/94 machine had been ordered which will have individual autopatch and mailbox access codes available. The digital voice recorder has also been ordered.

Doug also announced that the 90/30 machine was 'sick' and that his professional ethics would not allow him to continue maintaining it under the current conditions. Lillian Marvin NL7DL read a letter from Doug in which he stated his position regarding the machine. After discussion, it was decided to turn off the repeater until the antenna was replaced and the machine brought back up to optimum operating performance.

Frank Bowlin WL7D stated that he was not in agreement with the Club's policy of limiting the use of the autopatch on the 34/94 machine to area club members and visitors. During discussion, it was noted that enforcing this regulation was very difficult and that it has created animosity toward the Club by some members of the Amateur community. Fred Wegner KL7HFM moved that Club repeaters be kept open for use by the Amateur Radio community, including all facilities except for mailbox, autodial and message functions. Martha Neeley K1ZQS seconded Fred's motion, which passed unanimously.

Membership Chairman J. D. Delancey K1ZAT reported that there were 334 AARC members, of which 135 were AARC Life members, 3 making payments on Life memberships and 226 ARRL members, a 67.7 percentage.

Bob McKinnie AL7AW reported that he had been in contact with the China Radio Sports Assoc. (BY1PK) as a result of his visit there last year. Bob had previously mentioned that the AARC should attempt to establish a continuing relationship with CRSA, and since most of their equipment had

A YL's POINT OF VIEW

Well here it is May, and its beginning to look like we will have summer yet. It's that time of year when I get to "play" in my garden and greenhouse and greet and feed all the birds I haven't seen since last fall. (Boy do they eat)!

It is also a busy time for us hams, what with Walk for Hope, Mothers Day message fair and special olympics. The Eagle River WFH went well, though we could have used a few more bodies, and the wx was good. I guess we had close to 500 walkers. I'm told the Anchorage WFH had around 3,000 walkers. A big thanks to all that participated in both walks. I really enjoyed it and it was all for a really good cause.

And now as I said last month, a little about YLRL. The Young Ladies Radio League was organized in 1939. It is the only organization of international scope exclusively comprised of women licensed in the Amateur Radio service. It is a non-profit organization governed by the laws of the state of California. Membership encourages women to improve their knowledge of electronics and broadening their operating skills.

YL Harmonics is published bi-monthly by and for the members of the Young Ladies Radio League, Inc. Dues are \$6.00 per year, due and payable March 1 and delinquent March 31. For new and re-instating members joining after Aug.31, the dues may be pro-rated by half the annual dues for that fiscal year.

The YL Harmonics has news about YL's all over the world. There are many nets you can participate in and also contests. Each year

ANCHORAGE AMATEUR RADIO CLUB
BOARD MEETING
May 8, 1985

Present: President Daniel Stevens KL7WM, Activities Manager Mary Laws NL7DM, Secretary Lance Dunbar AL7BK, Treasurer Fred Wegmer KL7HFM, Trustee Bill Reiter KL7ITI, Board Members Martha Neeley KL7QS, J.D. Delancy K1ZAT, Ed Tucker KL7DU, Jean Belfield KL7VT, Mel Warner WL7J, John Williams AL7CT and Jim Larsen AL7FS. Absent: Past President Wilse Morgan KL7CQ, Vice President Lorraine Conary KL7IAF, Board Members Fenton Rexford NL7BE and Jay Jennings KL7JGU. Also present VHF Chairman Doug Dickinson KL7IKX and, later, David Stevens KL7EB.

The meeting was called to order at 7:00 P.M. by President Daniel Stevens KL7WM at the Hope Cottages meeting room.

The minutes of the previous Board and General meetings were read and accepted after corrections.

Treasurer Fred Wegmer KL7HFM gave an abbreviated report, since his computer was down for repairs. Fred reported that there was approximately \$5400 in the general account and that Marriner Bertholf NL7AF had advised against using the E.F. Hutton interest bearing checking account as a 'high traffic' general checking account. It would be OK as a reserve checking account. Fred also reported that he will have a detailed financial statement prepared for the end of the fiscal quarter.

Martha Neeley KL7QS reported on her continuing negotiations with the State Troopers regarding the use of their facilities for the storage of the Club trailer, and read a letter from the troopers stating their position and requirements for the use of their property. According to the letter, the troopers would gain control of the Club's property located on the trooper premises in the event of a State-declared disaster. The Board unanimously rejected the trooper proposal and directed Martha to offer a counter-proposal which would not limit or prevent Club access to its property. Fred Wegmer KL7HFM suggested that the possibility of providing the troopers with personnel trained in trooper communications also be explored.

VHF Chairman Doug Dickinson KL7IKX reported that a trip to Site Summit revealed that the PA stage of the 90/30 repeater had burned up again and that it should be replaced (see attached VHF report). KL7EF and KL7JIM have replaced the 90/30 antenna with a temporary one until the new antenna arrives. The status of the Tok dupexers is still unknown and the Minchumina Link project is awaiting a heavy duty yagi antenna and duplexers.

Martha Neeley KL7QS read a letter addressed to the Board from Walter Neeley W5AH0 (letter attached) expressing his disappointment at the Board's disregard for his abilities to control the operation of the 90/30 repeater during the recent "Shaker II" simulated earthquake exercise. The Board agreed that a letter of apology be sent to Walt.

Membership Chairman J.D. Delancy K12AT reported that there were 330 plus AARC members, of which 137 were Life members. A complete report was not available due to AL7BK's involvement in the Mother's Day project.

Activities Manager Mary Laws NL7DM reported that there was a \$192.40 balance in the activities account, and that she planned to spend most of it on door prizes for the June General meeting.

Jim Larsen AL7FS reported that the Flea Market Raffle plans were proceeding well. 1250 tickets will be printed and will sell for \$10.00 each. The first prize will be a trip to Hawaii for two or \$1500 cash. Total expenses will be \$6000 and, if all tickets are sold, the profit will be \$6500. A chairman is needed for the raffle.

Fred Wegmer KL7HFM gave a report on the nominating committee's progress and got a few more announced candidates for various offices.

A discussion was held regarding the auditing of the Club records, including the equipment inventory being compiled by KL7QS and the Club's liability insurance.

Daniel announced that the Club had received the ballot for the Iditarod Trail Committee Board of Directors election. Daniel will handle.

Daniel also reported that he will order certificates of appreciation to be awarded to deserving club members.

A short discussion was held regarding the Boys' Club equipment and its status.

There being no further business, the meeting was adjourned at 9:04 P.M.

Respectfully submitted,

Lance Dunbar AL7BK
Secretary

CONGRATULATIONS!!

BEAM HEADINGS

MODIFICATIONS →

For those amateurs that own one of the FT-101 series of transceivers (up to the EE series) and have found it hard to purchase the Japanese finals recommended in the service manual, don't despair, the following modification and associated adjustments will allow use of U. S. made final tubes. No change is necessary to the driver tube. The following modification is taken from FT101 series neutralization circuit update CA:205A by the Yaesu Electronics Corporation.

1. Disconnect the transceiver from its power source, and connect the unit to a 50 ohm dummy load. Remove the top case cover, and then remove the top cover of the final compartment. Discharge any high voltage by shorting across the plates of the tubes to ground.
2. Remove the present 100 pf 1KV mica capacitor at C125, and replace it with a 5 pf 1KV ceramic capacitor. Reinstall the top cover of the final compartment.
3. Reconnect the transceiver to its power source. Set the bandswitch to 10B (29.0 MHz), and turn on the power. Set the mode switch to USB, and the PO/IC/ALC switch to IC.
4. With the mic gain pot fully counterclockwise, key up the transceiver to check bias. If necessary, adjust VR1 on the Regulator/Calibrator Unit for a reading of 60ma while the unit is keyed.
5. Now set the mode switch to TUNE. Set the preselector to 10 meters, and the carrier control at "6". Set the plate and loading controls for a nominal output, then adjust TC27 (neutralization capacitor) for maximum power output (peak) at minimum current (dip).
6. Reinstall the top case cover: and modification is now complete.

GUNSTOCK REFINISHING

Remove old finish, wash old grease and oil away and refinish with the best of moisture proof materials.

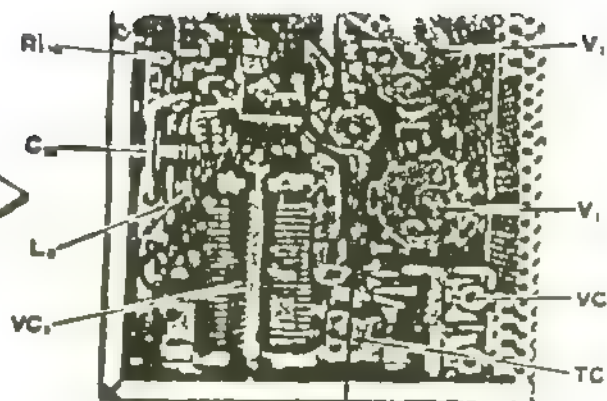

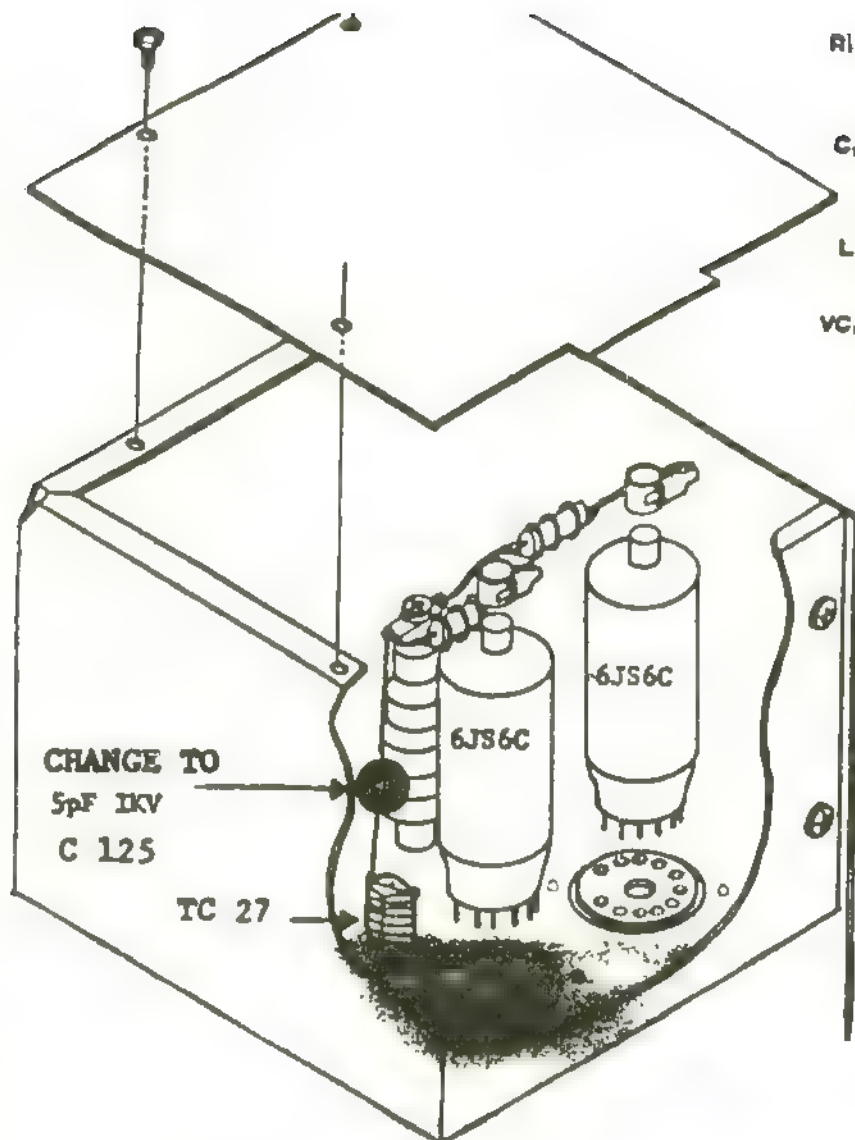

Reasonable rates and satisfaction guaranteed.

Pick up and delivery free for any ham.

Custom mixed stains.

WALK FOR HOPE

Just a little
footnote.

The 16th annual Walk for Hope is now history. This year was a little different in that the amateur community was conducting three events simultaneously. The only problem that this created was the lack of operators for the Eagle River busses. Compared with previous walks, 1985 was better than average. There were about 3000 walkers creating the usual sore feet and blisters but very few major problems and even the weather cooperated.

First of all, congratulations to KL7GQQ who expertly filled in the void created when the venerable KL7CQ did not walk this year. John ran the route in roughly 3 hours and 12 minutes. He also helped avert a major problem with the walk route by identifying a mismarked trail long before the walkers arrived so that we did not have 3000 lost people. Thanks John.

Second, thanks to KL7QS, who did a marvelous job of providing the base station link to headquarters and keeping Corbet Mothe, the walk director informed of what was happening.

Third, thanks to NL7A, KL7JAI, KL7SK, NL7CP, KL7IYX, KL7GM, NL7AV, KL7IBZ, KL7JIM, KL7JIG and KL7VL. for providing communications at each checkstation.

Fourth, thanks to KL7IZZ, KL7LO, KL7YF, KL7HM, KL7JKC, KL7IAF, KL7DU AND WL7J who provided communicators for the pick up and delivery service. This year the majority of our runs were to take people to the start and to return others there when they finished.

That's the wrap up of the Anchorage walk but far from the end of the amateur effort. At the same time, Eagle River was having their own walk and the ham community provided outstanding support there. Thanks to KL7IKF who managed the communication activities and did an outstanding job of controlling the activity. Thanks to KL7FHF and KL7GG for all the work in getting the 145.45 repeater on the air in time for the walk and manning check stations. Thanks to KL7MJ, AL7FI, AL7FJ, NL7AC, NL7EA, K7GUH and AL7GH who provided communications at the other stations. I don't know how the other support activities went but from what I heard monitoring the frequency when not busy in Anchorage, the communications were outstanding. Thanks everyone.

Finally, I would like to take this opportunity to personally thank all the people that helped with both the Anchorage and Eagle River walks. It is especially gratifying for me to have people that worked say "see you next year" as they are leaving. This is my ninth year and it gets better and better. See you next year.

73es

Bill, KL7ITI

?!

THERE WAS A NICE LITTLE OLD LADY WHO WAS A LITTLE OLD FASHIONED. SHE WAS PLANNING A WEEKS VACATION IN FLORIDA AT A PARTICULAR CAMPGROUND, BUT SHE WANTED TO MAKE SURE OF THE ACCOMODATIONS FIRST.

UPPERMOST IN HER MIND, WERE TOILET FACILITIES, BUT SHE COULDN'T BRING HERSELF TO WRITE "TOILET" IN A LETTER. AFTER CONSIDERABLE DELIBERATION, SHE SETTLED ON BATHROOM COMMODE. WHEN SHE WENT TO WRITE THAT DOWN, IT STILL SOUNDED TOO FORWARD, SO SHE REWROTE THE LETTER, REFERRING TO THE BATHROOM COMMODE AS THE B. C. "DOES THE CAMPGROUND HAVE ITS OWN B. C.?", IS WHAT SHE ACTUALLY WROTE.

THE CAMPGROUND OWNER WAS BAFFLED BY THE EUPHEMISM, SO HE SHOWED THE LETTER AROUND TO SEVERAL CAMPERS, BUT THEY COULDN'T FIGURE OUT WHAT SHE MEANT EITHER. FINALLY, THE OWNER DECIDED SHE MUST BE REFERRING TO THE LOCATION OF THE LOCAL BAPTIST CHURCH, SO HE SAT DOWN AND ANSWERED HER LETTER:

"DEAR MADAM: I REGRET VERY MUCH THE DELAY IN ANSWERING YOUR LETTER, BUT I NOW TAKE THE PLEASURE OF INFORMING YOU THAT A B.C. IS LOCATED 9 MILES NORTH OF THE CAMPGROUND AND IS CAPABLE OF SEATING 250 PEOPLE. I ADMIT IT IS QUITE A DISTANCE AWAY IF YOU ARE IN THE HABIT OF GOING REGULARLY, BUT NO DOUBT YOU WILL BE PLEASED TO KNOW THAT A GREAT NUMBER OF PEOPLE TAKE THEIR LUNCH ALONG AND MAKE A DAY OF IT. THEY USUALLY ARRIVE EARLY AND STAY LATE.

THE LAST TIME MY WIFE AND I WENT, WAS 6 YEARS AGO, AND IT WAS SO CROWDED WE HAD TO STAND UP THE WHOLE TIME WE WERE THERE. IT MAY INTEREST YOU TO KNOW THERE IS A SUPPER PLANNED TO RAISE MONEY TO BUY MORE SEATS. THEY'RE GOING TO HOLD IT IN THE BASEMENT OF THE B.C.

I WOULD LIKE TO SAY IT PAINS ME VERY MUCH NOT TO BE ABLE TO GO MORE REGULARLY, BUT IT IS SURELY NO LACK OF DESIRE ON MY PART. AS WE GROW OLDER, IT SEEMS TO BE MORE OF AN EFFORT - PARTICULARLY IN COLD WEATHER.

IF YOU DECIDE TO COME DOWN TO OUR CAMPGROUND, PERHAPS I COULD GO WITH YOU THE FIRST TIME, SIT WITH YOU, AND INTRODUCE YOU TO ALL THE OTHER FOLKS. REMEMBER, THIS IS A FRIENDLY COMMUNITY. -SINCERELY YOURS, "

VHF REPORT--JUNE 1985

Well, Howdy Again! By the time you all read this, I'll be flying around the Illiamna and Dillingham area, setting up remote base stations and repeaters; all, I might add, solar powered. Which is my lead in for the KL7EM/R repeater coverage.

Russ was up on Susitna during the Walk for Hope weekend. As he can tell you, coverage is excellent, even with a 150 mw handheld using a rubber helical (not the world's most effective antenna). From these tests we have pretty much decided to reduce the output power from the amplifier to about 2 watts, that coupled to a 9db gain antenna will give us about 16 watts ERP (effective radiated power), and from the elevation of that mountain should do a respectable job. The reduced output power will also mean the solar panels and battery pack need not be quite so large (read this as expensive), and as coverage is mapped out, and funds become available we might go back to the 10 watt amp, which would raise the ERP considerably. But a basic beginning will certainly work with the lower power, the receiver sensitivity is in the order of .2uv for 12 db s.d.f. (which is very respectable). There is still lots to be done on this project, and all volunteers are certainly welcome.

Thanks to the Walk for Hope folks the final adjustments have been made on the voting selector system. I think we have finally gotten all the bugs crushed out of the system, and you should not be able to tell when the voting takes place. But remember the system must have some type of signal to begin with, this system doesn't mean that a rubber ducky on low power inside the car, will do any better in certain areas of the city. Also remember that this system works by selecting the receiver with the best signal to noise, (not the loudest, or strongest signal strength). And the system is on continuous vote, this means that every 50 ms it looks at both receivers & selects the one with the best signal to noise and selects that receiver. What this means to the average user is that while you are mobile or portable and move from an area covered by the main receiver to one better covered by the remote, the system will follow you, with no dropout in signal, even while running a phone patch or whatever.

One of the other improvements that has been installed recently is a VOX unit. Please remember that this is a hybrid transmitter, this means we do have glowing emitters (tubes or valves) and Kerchunking the machine does shorten the life of the transmitter. The vox unit helps slow down some of our "friends" who insist in Kerchunking the system. Please, please, the only time you should ever Kerchunk this repeater will be when you "click your mike" during a phone patch. Please remember, key and ID, if the repeater hears you it will respond with the courtesy tones, why Kerchunk the repeater? You don't Kerchunk on a simplex frequency to see if someone is hearing you. . . So why do it to the repeater?? Work is continuing on the replacement for the KL7ION rpt'r (147.90/30). The club is using 1 of the remote base stations from the Iditarod race reconfigured by KL7EF (Al Andrus, one of the dedicated pros that gives of his time & effort to help support the club!), into a repeater. This equip. will sign w/the call of KL7EF/R while up on the mountain, since we need to do as much work in the shops down here, before transporting the equip. Time on the mountain is severely limited due to transportation requirements.

Hope you all have a good summer. We probably won't be filing these reports for the next couple of months due to our travel schedule.

Congratulations to the new officers of the AARC! I'm looking forward to another good year for our club.

Doug Dickinson, KL7IKX, AARC VHF Committee

ANCHORAGE AMATEUR RADIO CLUB
GENERAL MEETING
May 3, 1985

The meeting was called to order at 7:05 P.M. by President Daniel Stevens KL7WM at the Lucy Cuddy Center on the ACC campus.

Daniel presented a plaque for outstanding service and support of the AARC to Jeff Bouden of McCaw Telepage. It was also announced that Jeff had been recommended by the Board of Directors for honorary Life Membership. The general membership unanimously approved.

Introductions and general announcements followed.

Daniel announced that State Senate Bill SB-262, proclaiming the last full week in June as Amateur Radio Week, had cleared the Senate and was now in the House of Representatives for approval. Amateurs are requested to contact their legislators in support of passage of this very important legislation for amateur radio.

Walk for Hope Chairman Bill Reiter KL7ITI announced that 3 people were needed to help out at the Eagle River Walk.

Bob McKinnie AL7AW and Bud Laws KL7IBZ reported on the Mother's Day preparations and asked for more volunteers.

Ed Cole AL7EB reported that the 19/79 repeater was up and operating on Turnagain Arm from Hope. Some work still has to be done on the duplexers.

VHF Chairman Doug Dickinson KL7IKX reported that a trip had been made up to Site Summit to check on the 90/30 repeater and to install a temporary antenna. Doug reported that the PA board had burned up, and that one of the GE Master-Pro machines would be pressed into service in place of the damaged transmitter. Power output will be approximately 30 watts.

Art Taylor KL7SK announced that he is coordinating communications for the Special Olympics Summer Games to be held June 7 - 9 and is looking for volunteers.

Tim Pettis KL7WE announced that he is setting up communications for the Jimmy Huga Express, a downhill ski event for professional downhill skiers, as a fundraiser for Multiple Sclerosis, which will be run on May 30 from Hill 5572 to Johnson Creek in the Turnagain Arm area. Tim asked for a couple of volunteers to provide communications during the event. Tim also pointed out that access to the area would be strictly limited by

the Forest Service and does not recommend that people go down there to try and watch the event.

The following Life Memberships were approved:

#136 Bill Barker WB5MYU
#137 Iditarod Trail Committee

Officer Nominating Committee Chairman Fred Wegner KL7HFM made a plea for nominees for the various club offices. Fred managed to elicit a "Sounds like a 'YES' to me" from several people.

Field Day Co-chairs K1ZAT and KL7LO, in conjunction with KL7HFM and some of his connections, are working to secure the Upper Otter Lake Site for Field Day. Fred reported that he had had a chat with the post chaplain, who suggested that Field Day be made a joint AARC, military event. The club voiced its approval of the suggestion, and arrangements will be worked out.

Belt Buckle Chairman David Epstein KL7LO reported that he had orders for 7 club buckles, and stressed that the more buckles that were ordered, the cheaper they would be.

Following the drawing for several door prizes, Daniel announced that 6 to 8 volunteers were needed to help with the Alaska Women's Tricathlon on May 19.

Following the break, more door prizes were awarded, followed by the program for the evening, an ARRL disaster preparedness movie entitled "At Any Moment" provided by SCM David Stevens KL7EB. David also read a couple of ARRL bulletins in which it was announced that the 24MHZ band would be opened to amateur operation on June 22.

Activities Chairperson Mary Laws NL7DM reported that the summer club meetings would be held in Room 201 of Building K on the ACC campus, due to remodeling of the Lucy Cuddy Cafeteria. The July meeting will be held on the 2nd Friday of the month.

VEC Chairman Roger Hansen KL7HFQ gave a short report on exam dates and locations.

Following the drawing for the remaining door prizes, the meeting was adjourned at 9:05 P.M.

Respectfully submitted,

Lance Dunbar AL7BK
Secretary

been donated, the Club might consider the donation to them of equipment which they would find useful. Bob found that what they needed was 2 meter and 435 Mhz slugs for their Bird wattmeter. Bob recommended that the Club purchase a 10 watt and a 100 watt slug for each band at a cost of approx. \$200.00. Fred Wegner KL7HFM moved that the club go along with Bob's recommendation and charge Bob with the responsibility of obtaining and sending the slugs to BY1PK. Mary Laws NL7DM seconded Fred's motion, which passed unanimously.

Activities Chairman Mary Laws NL7DM reported that \$110. had been spent on door prizes for the last Gen. Meeting and had a current balance of \$169.30.

Frank Bowlin WL7D noted that the Club had not renewed its membership with the Iditarod Trail Committee. Bill Reiter KL7ITI moved that the \$200. membership fee be submitted; J. D. Delancy K1ZAT seconded, and it passed unanimously. The Iditarod Trail Committee has also asked for a Life Membership in the AARC. The nomination will be presented to the General membership for approval.

Jay Jennings KL7JGU has agreed to become the Club's Publicity Chairman.

Daniel reported that the Nat'l. Guard Armory, for use as a Flea Mkt. site, will not be available for scheduling til July, and that the rental rate was \$22.00/hr. Fred Wegner KL7HFM will contact Capt. Weiser of the Guard about the Club's use of the armory. A chairman is needed for the Flea Mkt.

Martha Neeley KL7QS reported she has been in contact with the State Troopers & has rec'd a verbal agreement from them which would allow the Club to store its antenna trailer behind their hqtrs. on Tudor Road. They'll also provide the Club with space to establish an emergency communications center in one of the rooms near the trailer.

Bob McKinnie AL7AW and Bud Laws KL7IBZ will co-chair the Mother's Day event. Discussion about transmission methods and recruiting of volunteers to man the booth at Sears Mall followed.

J. D. Delancy K1ZAT and David Epstein KL7LO have agreed to co-chair Field Day, which will be held on June 22 and 23. Fred Wegner KL7HFM will see about securing the Upper Otter Lake Site on Ft. Richardson.

Jean Belfield KL7VT is looking for someone to replace her as Hospitality Chairperson. Mary Laws NL7DM volunteered to take over after the June Club elections.

J. D. Delancy K1ZAT moved that Jeff Bouden of McCaw Communications be presented with an honorary Life Membership, in appreciation for his support of the Club's activities. Fred Wegner KL7HFM seconded the motion, which passed unanimously.

There being no further business, the meeting was adjourned at 9:51 P.M.

Respectfully submitted,

Lance Dunbar, AL7BK,
Secretary

there is a YLRL convention, this years being in Las Vegas in June!
YLRL also offers scholarships to deserving YL's who are studying for
a baccalauereate degree. Preference will be given to academic study
of communications and electronics or related arts and sciences.

Any YL wanting further information or wanting to join can contact
me at 888-2963. It's a great organization and a great group of YL's.

YL upgrades this month was Lisa Allison from novice to
technician. CONGRATULATIONS! If I missed any other YL upgrades, I'm
sorry, and I hope you're mentioned elsewhere in this newsletter.

Guess thats about it for this month. Lets all get out and
volunteer for Field Day. Its great fun and you can learn a lot. See
you at the meeting.

73,

Shari AL7FJ

Thought for the month: Kindness is the oil that makes the world run
smooth.

HAMMING IT UP IN THE KITCHEN ...with NL7DF

RICE AND BROCCOLI

2 c. cooked rice
1 pkg. chopped broccoli, thawed
and drained
1 - 8 oz jar Cheese Whiz
1 can Cream of Chicken Soup
1 can water chestnuts, chopped
3 T. margarine
1/2 c. each, chopped onion & celery
1/2 c. milk

Saute onion, celery in margarine.
Add soup, milk, 1/3 jar Cheese Whiz.
Add uncooked, well drained broccoli,
rice and chestnuts. Put in casserole.
Top with remaining Cheese Whiz, which
has been softened in microwave, or
over hot water. Bake at 350. 30 min.

PORCUPINES

2 lbs. ground beef
1 clove garlic
1 medium onion, chopped
2 eggs, unbeaten
1/2 t. oregano
1 cup minute rice, uncooked
salt and pepper to taste

Mix all. Shape into small balls &
put into casserole dish.

Now, mix:

2 cans #303 stewed tomatoes
2 small cans tomato paste
1 1/2 c. water

Pour this over balls, and bake
350 deg. for 45 min to 1 hr,
uncovered. Serve w/spaghetti.
